Isten hozott,

We're coming into a time of communication, expansion, spiritual manifestations, creativity and discipline in 2010.

This year communication is a powerful tool. Utilize it. You will be great at dealing with others through writing, talking and all forms of communication. This is the time to get your thoughts and ideas across to elevate your life. To listen to others and decide what works for you and what does not. Open your mind to new ideas.

Spiritual manifesting will occur throughout the year. Focus on your goals. Do so from a positive heart and know that the Universe takes care of you. Decide what you desire to manifest and what you don't.

The Universe is an unlimited supply.

Creativity will be at its height now. Either creating physically-such as art, music, arts & crafts, among others. Or you will create mentally and see shortcuts to solving situations, coming up with ideas, seeing possibilities.

This year is one of you working with discipline. You need discipline to stay focused on your goals and master spiritual manifesting. Without discipline, there is chaos and nothing will get done. To achieve, you need the discipline to stick with your dreams and goals. Expand your horizons now. Do the things you've put off. The things you've been hesitant to try. You do not need to complete everything you start. Simply try things and see if and how you like it. Take action.

This is the time to get rid of old dreams and goals and to put forth your new ones.

Look at your life:

- Where are you now?
- What have your goals and dreams been up until now?
- How much of this have you achieved?
- Which ones?

Whatever you've achieved, congratulations!

This is the time to DREAM BIG. New energies are coming in to elevate, enlighten, motivate and move you up. Don't just watch. Ride these energy waves. Take action and control your life with determination and focus. What you dream can become a reality. Open your heart, mind and spirit and soar on the waves of energy to create the life you deserve. Clear out your mental, emotional closet and make way for the new.

Dream your great dream, act on it and manifest it. YOU can do it.

May God Bless You Abundantly, Maria
